The LITENOV staff is starting a review of all information on Soviet cipher clerks, and finds, whereas there is information on cipher clerks stationed in some areas, there is no information on these persons in other areas. Since the identification of the pertinent individuals is a first step in the study of cipher clerks and their activities, it is requested that all stations make an effort to identify the cipher clerks at the Soviet installations in their areas and send the names in to Headquarters, along with the reasons for the belief these Soviets are engaged in this work. Liaison may be completed.
